

From the Family Farm to **priority** IAC™

Richard V Breunig never stops innovating

From the family dairy to a world-renowned purebred genetic breeding establishment, to Priority IAC, Richard Breunig has created, crafted, and acted on his love “For Healthy Animals.”

His ever-evolving mind and deep passion for animal health have been the catalyst for inventing truly unique products featuring Priority’s own *Smartbacteria* to better animal health throughout the world.

He is the first to bring forth the principles of Microbiology Nutrition for animal health.
