- There are several reasons to shop Up-Cycled goods:
  - ♻️ • Support Colorado local artists / artisans / craftspersons dedicated to giving new life to items that would otherwise become refuse, those that create beautiful, superb, one-of-a-kind goods and bring them to conscientious consumers
  - To Up-Cycle is incredibly sustainable, meaning that very little, if anything at all, is purchased to create or refurbish an object, thereby breaking the cycle of consumerism on a large or corporate scale and keeping your cash in the small, local economy where you'll see more returns on your money, i.e. investing in artists for continued creating & crafting.
  - These Up-Cycled items have more weight and importance as objects as the amount of thought, skill, creative vision, and heart that is poured into each one by the creator.
